FEATURES

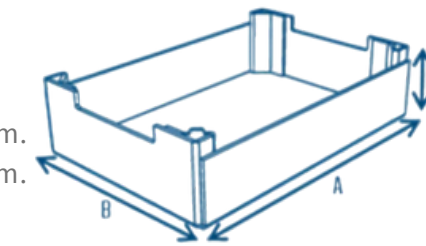

The TB-Pack range represents the technological evolution of our TGOX, combining innovation, advanced design, and maximum safety without compromising reliability, robustness, or versatility. Designed for high-speed packaging, TB-Pack offers up to 2,400 cycles/hour, extendable to 3,000 with our speed upgrade kit. It is compatible with most container formats, adapting to future product developments. Waste reduction and cost optimization improve return on investment. Its renewed design enhances visibility and safety while maintaining low maintenance. TB-Pack combines advanced technology and industrial precision, maximizing productivity and ensuring consistent results in every cycle.
